Change of Quarters.

25X1

3.

- a. The Ludendorff Kaserne in POTSDAM, which was vacated by components of the 2d Gds AAA Div in early July 1952, was occupied by an advance party of the 34th Arty Div (US) from the Delius Kaserne in mid-August 1952. It is expected that elements of this division will occupy the kaserne upon completion of the summer training in October 1952.
- b. The former Norddeutsche Maschinenfabrik in LUCKENWALDE was vacated by the 91st Gds RL Regt of the Third Gds Mecz Army at the end of August and the beginning of September. The regiment moved into Stalags I and II. The Norddeutsche Maschinenfabrik has presumably been occupied by a training unit of the Third Gds Mecz Army. Elements of the unit are quartered in requisitioned houses on Am Schieferling.
- c. [REDACTED] the unit in the barracks installation in PRA-TIMZ which has been stationed there since the winter of 1951/1952 and, possibly, is an artillery training unit of the Eighth Gds Army, was allegedly transferred to LIEBAP.
- d. The barracks installation in BAUTZEN was vacated by the rear details of the 14th Gds Tank Regt of the 11th Gds Tank Div in mid-August and the quarters were placed at the disposal of a VP regiment (air force). The new location of the 14th Gds Tank Regt has not yet been determined.
- e. The former DAF (Deutsche Arbeitsfront) (German Labor Front) building and the Puesserkrug in SCHLUMM have been reoccupied since the beginning of August 1952 by personnel of the 94th Gds Itz Rifle Div who are to be trained so that the German personnel hitherto employed in barracks installations can be dismissed.
- f. The transfer of the two AT artillery brigades of the Second and Fourth Gds Mecz Armies [REDACTED] was made in mid-September 1952. The 2d Light Arty Brig (US) of the Second Gds Mecz Army moved from the restricted city settlement, QUATINBURG, to the Olympisches Dorf, DORBERITZ. The 11th Gds AT Arty Brig of the Fourth Gds Mecz Army started moving from Olympisches Dorf to the former German Army clothing depot I, 3 MEAU, in the middle of September. The Soviet main clothing depot of the GCPG, [REDACTED] previously stationed in BERBAU, was transferred to FALKENBURG/Oder.

25X1

25X1

4.

[REDACTED] the Soviets plan to again transfer the Hq GCPG with its offices. The last move of the Hq GCPG took place in the beginning of June 1952 when it was transferred from POTSDAM to [REDACTED]. It may have been planned

ILLEGIB

SECRET

SECRET

- 6 -

25X1

from the beginning to use the barracks installations in the KUNEDORF-ZOSSEN area only as intermediate quarters for the Hq GOCG, which undoubtedly moved with haste in June 1952. There is a possibility that the underground installations near KUNEDORF-KALKBERG, where several large barracks installations are under construction, as well as those near KALCHENHAGEN may be used as quarters for a high-echelon headquarters. Both installations are connected directly with the BERLIN-MOSCOW long-distance telephone line.

Training and Field Exercises.

5. Division Training.

Prior to the middle of September 1952, there were no changes in the occupation of the old troop training grounds. The occupation has remained constant since May 1952. Prior to mid-September, training largely included field exercises at battalion and regimental level as well as exercises with mixed combat teams. Major troop contingents moved from the troop training grounds of TELPLIN, LITSTOCK and LETZLING HEATH to maneuvers in the LETZLING HEATH-BATHENOW area during the second half of September, while other components, at these and other troop training grounds, completed their summer training and returned to their military posts during that period. Specifically, the following information on training activity and movements is available:

KIENDEL: No change in the occupation of the troop training grounds until mid-September. The following units were confirmed: the majority of the 57th Gds Mtz Rifle Div in Camp KIENDEL south of Highway No 64 with elements in a small hutment at Kuenkelhof, northeast of GROSS LUPNITZ; and corps troops of the XXIX Gds Mtz Rifle Corps, including the corps artillery brigade from EISENBURG and the 94th PL Regt (US) from LEIPZIG-SCHONHAU, in Camp Haina-Wolz west of HAINA. Elements of the regiment practiced firing at ALTENGRABOW from 4 to 9 September. Components of the 17th Gds Tank SP Regt of the 57th Gds Mtz Rifle Div moved to LETZLING HEATH on 27 September. In 1951, Camp Haina-Wolz was occupied by the 21st Gds Mecz Div from HALLE. [] the 57th Gds Mtz Rifle Div would return to EISENBURG on 18 October 1952.

OERDRUF: In mid-September, the barracks installations at OERDRUF were still occupied by the majority of the 39th Gds Mtz Rifle Div, the wood camp northwest of OERDRUF by the majority of the 20th Gds Mecz Div and Camp PATRIERODA by corps troops of the XXVIII Gds Mtz Rifle Corps. Components of the 25th PL Bn (US) of the 20th Gds Mecz Div practiced firing at ALTENGRABOW from 30 August to 9 September and components of the 316th RL Regt (US) of the XXVIII Gds Mtz Rifle Corps from 6 to 10 September. [] until their departure to MEININGEN on 31 August, major components of the 117th Gds Mtz Rifle Regt must have been at the training grounds as elements of the 87th Gun Arty Regt from PLAUEN were there from about 15 September until 19 September. Units of the 21st Gds Mecz Div from the LOSSA troop training grounds had also been at OERDRUF during the same period and, elements of the 39th Gds Mtz Rifle Div from the OERDRUF troop training grounds were at LOSSA. A large-scale tank exercise involving several regiments [] SCHLADENHAUSEN-OERDRUF road on 17 September. About 1 October, elements of the 36th (?) Tank Regt (US) of the 20th Gds Mecz Div returned to LEITZ and elements of the artillery brigade of the corps returned to UFA.

SECRET

SECRET

- 7 -

25X1

LOCSA: The majority of the 21st Gds Mecz Div from HALLÉ was [redacted] at LOCSA at the beginning of September. Elements of the 25th HL Bn (US) were at ALTREGRABOW from 30 August until 6 September. Other components of the division held short-term exercises at OBERHUF during the first half of September.

BAD KOSSEN: The quarters at the training site have continuously been occupied by engineer units of the Eighth Gds Army until the end of September. [redacted] the units departed toward HAUENBURG on 29 September, presumably to participate in further exercises.

LETZLING
HEATH:

No changes in the distribution on the individual quarters of the units stationed there since May 1952 [redacted] during September. However, it is reasonable to assume that numerous tank firing details of all armies except for the First and Fourth Gds Mecz Armies, were in the southern sector of LETZLING HEATH in September as was the case in the spring. * The following movements from the troop training grounds were made after 20 September:

- a. Departure to LOSCHAU and, possibly, for field exercises on the Elbe River north of TACHENBURG, of components of the 7th Gds Tank Div.
- b. Departure of elements of the 10th Gds Tank Div for field exercises of the Fourth Gds Mecz Army in the LATHEMO.-HEIMHAUSEN area and direct return to KALPHITZ and EMAN-DENBURG of other units.
- c. Return of elements of the 136th Gds Div Tank SP Regt to BURG.
- d. Elements of the 207th Itz Rifle Div concentrated in the northern sector of LETZLING HEATH possibly departed to participate in Third Shock Army exercises in the area east of LETZLING HEATH. Components of the 19th Gds Mecz Div from Camp BORN may also have departed for the same reason, however, the camp appeared to be still occupied on 2 October.

Starting about 20 September, the Third Shock Army conducted large-scale fall maneuvers in some sections of LETZLING HEATH and in the area adjoining to the east as far as the Elbe River. For details, see paragraph 11 c.

WITTSTOCK: Units of the 18th Mecz Div which had been assembled there during the summer months started departing for the Third Shock Army maneuver area of LETZLING HEATH - LATHEMO. and farther to the south by rail and road about 13 September. Other units arrived in PPELWEG between 23 and 30 September, probably coming directly from the troop training grounds. The 348th Engr Bn which was in BITTKAU during the summer months returned to WITTSTOCK in mid-August.

BITTKAU: During the first half of September, the camp of the engineer training site was gradually vacated by units of the Third Shock Army. [redacted]

SECRET

SECRET

- 8 -

25X1

KONIGS-
BRUNCK:

Prior to mid-September, the summer quarters along the SCHLAMP-
NITZ-SCHNECKAU road were still occupied as was observed
previously. Components of the 25th IL Brig of the IV Arty
Corps from PRZENITZ were at the troop training grounds from
9 to 20 August. A large-scale field exercise involving all
units there was held north of KONIGSBRUNCK from 6 to 8 Sep-
tember. The first advance parties left the troop training
grounds for BRUNCK, LEISNIG and MUESEN as early as mid-Sep-
tember, while, at the same time, elements of the 4th Gds AAA
Div allegedly transferred to the CHENITZ-WEICKAU area. Ele-
ments of the 11th Gds Tank Div were unloaded in MUESEN
during the period from 19 to 22 September and allegedly
marched to the Dohnitzsch Kaserne. Possibly, they were ele-
ments of the 15th Gds Tank Regt of the division, whose trans-
fer from MUESEN to MUESEN [redacted]

25X1

[redacted] however, that exercises were con-
ducted in the GROCHENHAIN area after 20 September. [redacted]

25X1

[redacted] the period between the end of September
and mid-October is to be the time for the completion of the
summer training and the final departure of units to their
military posts.

25X1

ZEITHAIN: The components of the 9th Tank Div that moved to ZEITHAIN in
May 1952 were probably still there in September [redacted]

25X1

JUTERBOG
area:

Units of the 6th Gds Tank Div stationed in the northern section
of Camp WERDER-WEIKENHOF returned to their permanent quarters
in JUTERBOG-ROTES LAKE during the first half of September.
However, the bulk of the division was still in the camp at the
end of September. During September as well as during the
preceding months, the JUTERBOG troop training ground was
used for firing practice with live ammunition by artillery and
AAA units of various armies. The following units were con-
firmed:

a. From late August
to early September:

AAA and artillery units of the 9th Mecc
Div from WEISSWASSER; AAA units of the
6th Gds Mecc Div from TEMPLEIN; artillery
units of the 12th Gds Tank Div from NEU-
RUPPIN; and air force AAA units from
FINOW, WERNEUCHEN, and FRIESTEN WALDE.

b. From 24 to 27
September:

Elements of the 2d Light Arty Brig (US)
from Doeberitz and the 90th IL Regt
(US) from SCHNORFALDE.

25X1

From late August until about 10 September, [redacted]
the six armies and four corps were assembled in Stalag I,
LUCKENWALDE. [redacted]

25X1

[redacted] vehicles were turned in at the
signal repair shop of the GOCF for the installation of new
equipment and/or repair. Major components of the 11th Gds
Mecc Div from JUTERBOG conducted a field exercise in the
area southeast of the post from 16 to 19 September. Air
force units participated.

SECRET

SECRET

- 8 -

25X1

KONIGS-
BRUNCK:

Prior to mid-September, the summer quarters along the SCHLAMP-
NITZ-SCHNORKAU road were still occupied as was observed
previously. Components of the 25th IL Brig of the IV Arty
Corps from PUSCHITZ were at the troop training grounds from
9 to 20 August. A large-scale field exercise involving all
units there was held north of KONIGSBRUNCK from 6 to 8 Sep-
tember. The first advance parties left the troop training
grounds for DRESDEN, LEISNIG and JUMZEN as early as mid-Sep-
tember, while, at the same time, elements of the 14th Gds AAA
Div allegedly transferred to the CHEMNITZ-SCHNORKAU area. Ele-
ments of the 11th Gds Tank Div were unloaded in MEISSEN
during the period from 19 to 22 September and allegedly
marched to the Bohnitzsch Kaserne. Possibly, they were ele-
ments of the 15th Gds Tank Regt of the division, whose trans-
fer from KATZ to MEISSEN [redacted]

25X1

[redacted] that exercises were con-
ducted in the GROSSENHAIN area after 20 September. [redacted]

25X1

[redacted] the period between the end of September
and mid-October is to be the time for the completion of the
summer training and the final departure of units to their
military posts.

25X1

ZEITHAIN: The components of the 9th Tank Div that moved to ZEITHAIN in
May 1952 were probably still there in September [redacted]

25X1

JUSTERBOG
area:

Units of the 6th Gds Tank Div stationed in the northern section
of Camp WERDER-NECKENBURG returned to their permanent quarters
in JUSTERBOG-NECKENBURG during the first half of September.
However, the bulk of the division was still in the camp at the
end of September. During September as well as during the
preceding months, the JUSTERBOG troop training ground was
used for firing practice with live ammunition by artillery and
AAA units of various armies. The following units were con-
firmed:

a. From late August

to early September: AAA and artillery units of the 9th Mecz
Div from WEISSWASSER; AAA units of the
6th Gds Mecz Div from TETPLIN; artillery
units of the 12th Gds Tank Div from NEU-
RUPPIN; and air force AAA units from
FINOW, WERNETUCHEN, and FIKSTEN WALDE.

b. From 24 to 27
September:

Elements of the 2d Light Arty Brig (US)
from Doberitz and the 90th IL Regt
(US) from SCHOTTWALDE.

25X1

From late August until about 10 September, [redacted]
the six armies and four corps were assembled in Stalag I,
LUCKENWALDE. [redacted]

25X1

[redacted] vehicles were [redacted]
signal repair shop of the GOCG for the installation of new
equipment and/or repair. Major components of the 11th Gds
Mecz Div from JUSTERBOG conducted a field exercise in the
area southeast of the post from 16 to 19 September. Air
force units participated.

SECRET

SECRET

- 9 -

25X1

25X1

MISSAUSSEN: The bulk of the 9th Wez Div was still confirmed at the troop training grounds at the end of September. [] the division was to move out on 5 October for a maneuver which would last 8 to 10 days. Subsequently, the troops would return to their military posts.

25X1

TEPLIN: There were no changes in the occupation of the troop training grounds until the middle of September. Prior to that date, only local exercises were conducted. These exercises included bridge construction on Pauler Lake and near KAIMENBURG by engineer units as well as tank practices at battalion strength in which engineer troops equipped with flame throwers participated. Units of the 6th Gds Wez Div and army troops of the Fourth Gds Wez Army started departing to their WEETZOWALDE, BERNHAU and BAD FRIEDRICH-WALDE posts about 17 September. Other units also departed simultaneously for practices in the area of RATHENOW and farther to the east. See also paragraph 11 b. It is expected that the 25th Tank Div will return about 15 October, but it is possible that, as was previously suggested, individual elements of the division may remain at TEPLIN.

LIMBERGSE: The units of the 7th Gds Wez Div from FRANKFURT/Oder will [] return to their post during early October. No information regarding a participation in fall maneuvers has been received.

6. In August and September, the three divisions and army troops subordinate to the Second Gds Wez Army again conducted field exercises separately from the units of the other armies. []

25X1

From 8 to 11 August: Tank exercises in the area of RUTENBERG north of TEPLIN, by major tank, engineer and motorcycle units of the 9th Gds Tank Div.

From 16 to 18 September: Exercises with air force support of many units of the 1st Wez Div and the 12th Gds Tank Div in the area of the DOEBERITZ troop training grounds.

From 16 to 19 September: A large-scale exercise of elements of all divisions including army engineer troops from NEUBRANDENBURG and elements of the IV Arty Corps and air force in the area north of RATHENOW. The Havel River was crossed near ALBERTSDAM.

From 23 to 26 September: A combat group of the 9th Gds Tank Div engaged in exercises in the RUTENBERG-MILOV area.

From 24 to 27 September: Elements of the 2d Light Arty Brig (US) from DOEBERITZ and of the 20th AB Regt (US) from SOCKOW-WALDE practiced firing with live ammunition at JANTENOG.

SECRET

SECRET

- 10 -

25X1

Special Exercises.7. Artillery.

Prior to about 18 September, the ALTENGRADEK troop training grounds was still occupied by the bulk of the brigades of the IV Arty Corps and the two army artillery brigades of the Eighth Gds Army and the Third Shock Army. Major elements of the IV Arty Corps departed on 18 and 19 September to participate in large-scale exercises of the Fourth Gds Mecz Army in the RATHERNOV area and of the Third Shock Army in the LUTZLING HOF area. The ALTENGRADEK quarters were only lightly occupied after the departure of these troops. In addition to the above mentioned units, elements of the following units practiced firing at ALTENGRADEK during the period from mid-August until mid-September: Components of the 31st AAA Div of the Second Gds Mecz Army which were shipped to BORTZOV on 27 and 28 August; components of the 24th and 25th RL Bns (US) of the 20th and 21st Gds Mecz Divs and elements of the 316th and 94th RL Regts (US) of the XXVIII and XXIX Gds Itz Rifle Corps from 30 August to 10 September.

8. AAA Units.

25X1 [redacted] the 4th AT Arty Brig (US) of the IV Arty Corps from BERGEN and of the 3d Gds AAA Div of the Third Shock Army from MAGDEBURG were shipped to the JUSTRO firing range during the period from 3 August to 20 September. The following units left the firing range during the same period:

AAA units of the 18th Mecz Div for the JUSTSTOCK troop training grounds.

An air force AAA unit for PUNTITE airfield.

Components of the 4th AT Arty Brig (US) of the IV Arty Corps for BERGEN.

Unidentified AAA units of the Second Gds Mecz Army for PUNSTENBERG.

Components of the 53d AAA Div (US) of the Fourth Gds Mecz Army for EBERS-ALDE and PUNSTENBERG.

Components of the 13th AAA Div of the Eighth Gds Army for WEIMAR.

Components of the 6th Gds AAA Div (US) of the IV Arty Corps for CHELNITZ.

Components of the 2d Gds AAA Div of the IV Arty Corps for RUMAGEL-KLAUSDORF.

Components of the 4th Gds AAA Div of the first Gds Mecz Army for KORNIGS-DRUCK.

Components of the 31st AAA Div of the Second Gds Mecz Army for SCHNEIDER.

Components of the 3d Gds AAA Div of the Third Shock Army for MAGDEBURG.

AAA unit of the 94th Gds Itz Rifle Div and/or of the IX Itz Rifle Corps for SCHNEIDER.

25X1 [redacted] additional shipments were to be dispatched from PUNSTENBERG railroad station after 20 September and that the firing range was to be vacated by 1 October. The range is to remain unoccupied until 1953.

SECRET

SECRET

- 11 -

25X1

9. Engineer Troops.

On 15 September, elements of the 35th Engr Regt (US) of the Third Gds Mecz Army were shipped from SPANDENBERG to BITTKAU while other elements were shipped to the BITTKAU training site via the TANGEL-HUENTE railroad station. For details on exercises of these units in the BITTKAU area, see paragraph 11a.

10. RUEGEN Island.

Elements of the 4th AT Arty Brig (US) of the IV Arty Corps from RUEGEN Island practiced firing with live ammunition at MUSTROW firing range at the end of August and the beginning of September. [redacted] while visiting the island in the middle of September, Marshal S.K. Timoshenko also inspected the components of this brigade. His appearance there tends to indicate that in his capacity as commander-in-chief of the White Russian FD, he may also have certain powers regarding the command and inspection of Soviet forces in Eastern Germany.

25X1

Fall Maneuvers.

11. Large-scale field exercises closing the 1952 summer training began in the middle of September which is two to four weeks earlier than in the preceding years. Individual phases of the exercises lasted about 1 October, when the troops subsequently returned to their military posts. However, it is reasonable to assume that other fall maneuvers will be conducted after 10 October, involving only those units which have hitherto not participated in this year maneuvers. [redacted]

25X1

a. Third Gds Mecz Army.

Components of the 35th Engr Regt (US) of the army were transferred from SPANDENBERG to BITTKAU on 15 September. See paragraph 9. After about 17 September, exercises were conducted in this area [redacted]

25X1

25X1

25X1

[redacted] involved other components of the army whose arrival in this area was not [redacted] A bridge was constructed over the Elbe River near SANDFUERTH during the exercise in which air force units also participated. The departure of individual units of the 7th Gds Tank Div on 22 September from the BATHINI railroad station makes it appear possible that divisional components from BATHINI participated in the maneuver which is believed to have terminated about that time. The subject of the maneuver presumably was an attack from west to east with river crossing.

b. Fourth Gds Mecz Army.

After 21 September, elements of the Fourth Gds Mecz Army, including major elements of the 5th Gds Mecz Div and 63d AAA Div (US) started departing by rail from the WITTLIN troop training grounds toward the southwest via GIESSENBURG. The bulk of the shipments was unloaded at the SCHWITZ railroad station near RATHEN from where the units proceeded to the training area south of RATHEN-ROSENHAUSEN, apparently by road. Units of the 10th Gds Tank Div arrived in the RATHEN area by rail. These units, supported by elements of the IV Arty Corps, fighter and AA units began field exercises in the area about 22 September. During the course of the maneuver which terminated about 25 September, a bridge was constructed across the Havel River near WITTLIN south of RATHEN. The bridge was used by tanks when attacks were launched from east to west. The subsequent return movement to the GIESSENBURG, BAD FREDEBURG and BITTKAU military posts lasted until 28 September.

SECRET

SECRET

- 12 -

25X1

c. Third Shock Army. All units of the Third Shock Army began to assemble by road and rail between 18 and 20 September. The movement lasted until 29 September and most of its shipments were identified as they passed through FRIEDBERG in a southerly and southeasterly direction, through STENDAL, and en route on the STENDAL-MAGDEBURG line. The arrival in the area of LETZLING BATH of elements of the 6th and the 34th Arty Div (WS) from ALTENGRAAB and POTSDAM coincided with this movement. Details on the course of the exercises conducted by these units, are not known. There are indications, however, that the maneuvers were conducted only by combat groups. It is known that the northern and eastern edge of the LETZLING BATH and, according to troop movements, the area northwest of BATHENOW, where river crossings were possibly practiced on the Havel River, were the main training areas. The first units departed by rail and road from the training area on 30 September and on 1 and 2 October and went northward in the direction of FRIEDBERG and to the IV Arty Corps posts of BATHENOW and PUSCHTITZ.

d. First Gds Recz Army.

Field exercises of components of the First Gds Recz Army which had arrived from KOWIENIECZ, began after 20 September, possibly in the FRIEDBERG-GROBEN BATH area. Air force units also participated in this maneuver.

Personnel.

12. The exchange of personnel started in the middle of September as had been expected. [redacted] several railroad districts 25X1
[redacted] transitively, empty trains for troop shipments were to be made available by about 10 September. The first east-bound shipments of troops were observed after 13 September and the first west-bound shipment with troops after 19 September. Up to 2 October, 3 trains with recruits and 4 trains with discharges [redacted] 25X1
[redacted] The exchange program is expected to be continued as further empty rolling stock for shuttle traffic has to be made available.

Transportation.

13. [redacted] the traffic situation was normal. After mid-September, the number of railroad cars claimed by the Soviets increased considerably, probably in connection with the large-scale maneuvers held in Eastern Germany at that time.

14. The coal reserve continued to rise slowly and, on 11 September, was adequate for 13 days' requirements. [redacted] 25X1
[redacted] a conference of representatives of the GOC and the Directorate General, Railroads, Berlin, held between 13 and 20 September, that the coal reserve of the East German Railroads was to be increased to 60 days' requirements. The fixed target of 480,000 tons of hard coal and 480,000 tons of brown coal briquettes is to be reached by the end of 1952. The establishment of a coal reserve is not unusual, especially during the winter months. In the winter of 1949/1950, a reserve of 400,000 tons of coal had to be established [redacted]

ILLEGIB

SECRET

- 13 -

25X1

15. Except for local fluctuations, rail traffic through border stations on the Oder-Neisse line remained normal. Special transportation operations included:
- a. The vehicle replacement program under way since mid-February 1952.
 - b. The return of former German freight cars re-purchased from the U.S.S.R. by the East German railroad administration.
 - c. The shipment to Eastern Germany of tanks, armored scout cars, rocket launchers, and armored personnel carriers. From the places to which these shipments were dispatched it was concluded that most of this equipment was consigned to the VP.

16. Railroad Construction Projects.

25X1

- a. Work was continued on the railroad construction projects [redacted] [redacted] Because of a shortage of labor and construction materials, the completion dates fixed for the individual projects could not always be kept. Thus, for instance, the completion date for the Mordring-Berlin had to be postponed from 15 to 30 September.
- b. In early September, work on the reconstruction of the railroad viaduct over the Neisse River near GORHLITZ was started. The reconstruction of this viaduct would open a seventh border crossing point on the Oder-Neisse line. GORHLITZ is on the modern LUBEN-CHACOW-Upper Silesia-HIESCHBERG-DRESDEN railroad line, which is of the greatest importance for coal shipments from Upper Silesia. In the event of an increase of Soviet transit traffic through Poland, this line could be used to ease the strain on the other transit lines.

Supply.

17. [redacted] the field 25X1
- or supply, emphasis was centered on the vehicle exchange program and the shipment of equipment for VP units. From February to 21 September 1952, a total of 10,178 new vehicles was shipped to Germany, while 8,316 used vehicles were returned to the U.S.S.R. The number of new vehicles delivered by the U.S.S.R. now equals about 20 percent of the total vehicle equipment of Soviet troop units stationed in Eastern Germany. An unusually large number of tanks and other equipment was delivered to the VP during the period from early August to mid-September. Most of the equipment was sent to eastern Mecklenburg. From late April to about mid-September, about 1,300 guns of all calibers, 800 tanks and SP guns in addition to 150 armored scout cars and armored personnel carriers were shipped from the U.S.S.R. to Eastern Germany. The two supply programs caused most of the increase in the volume of rail supply shipments from the U.S.S.R., so that it rose from a monthly average of about 1,000 carloads to 2,708 carloads in August 1952. The shipments included 1,161 flatcars with vehicles, 267 flatcars with tanks, and 253 flatcars with artillery pieces. These operations also affected interzonal supply traffic, however, in other respects it was normal. A total of 476 carloads of ammunition, 334 of which were consigned to the VP, were the first sizable ammunition shipments observed since May 1952.

25X1

18. General Information on Supply Installations.

- a. The Main Clothing Depot of the GDFG, [] was transferred from BERTAU to HANNOVER/Oder, and allegedly occupied a construction material depot of the Kech in mid-September. See also paragraph 3f. 25X1
- b. The tank repair shop, [] at BUENSDOFF, is subordinate to the GDFG, as it overhauls 30 tanks per month. It has the same capacity at the tank repair shop, [] 25X1
- c. The 65th Motor Trans Regt of the GDFG, [] in POTSDAM-WILDPARK, allegedly received 120 tank trucks from the IFA Plant, LEIPZIG, in July 1952. It must therefore be expected that a tank truck column with a capacity of 350 to 400 cubic meters will be activated with this supply regiment. 25X1

German Volkspolizei.19. Armeegruppe Nord.

About the beginning of August 1952, a center of activation was formed in northeastern Germany under the supervision of a high-echelon VP headquarters [] as Armeegruppe Nord. This unit included at least two divisions each in the areas of AGGERSIN-TORGELOW and PRORA on Ruegen Island, and troops. Most of the troops are stationed in the PRENZLAU-PASEWALK-AGGERSIN-TORGELOW area. The assignment to the Armeegruppe Nord of the newly activated cadre division PIRLOW, which has at present a strength of about 3,000 men, and of the cadre division ROSTOCK has not been definitely proved but appears possible. The filling up of the Armeegruppe Nord with personnel from other cadre units during the period from the end of July until the end of August coincided with the equipping of this units with arms and other items which, however, continued in September. It appears that the delivery of arms decreased after mid-September, while the shipments of motor vehicles and prime movers from German and Russian firms continued to arrive.

25X1

The Armeegruppe Nord is believed to have a present total strength of at least 50,000 men, and about 300 tanks and VP guns. About 400 tanks and VP guns were issued to the units in the AGGERSIN-TORGELOW area and the remainder to the units in PRORA on Ruegen Island. All arms consigned to the VP by the Soviets are shipped to PRENZLAU from where they are distributed to the individual units. []

25X1

[] two mechanized divisions and two motorized rifle divisions are in existence in the Armeegruppe Nord and PIRLOW and ROSTOCK areas. The training of units was delayed as a large percentage of the VP is committed to the construction of winterized quarters.

- 20. Other Areas. Since 18 September, 51 tanks have been issued by the tank distribution point of the Kasernierte Volkspolizei (KVP) to ROSTOCK and 57 tanks to the southern area of Eastern Germany. This might be the beginning of an equipment program for further cadre units of the KVP. No information indicating that the units have been fitted up to strength has been obtained. [] in addition to Armeegruppe Nord, two other Armeegruppen will be formed, namely Armeegruppe Mitte with the headquarters presumably in HANNOVER, and Armeegruppe Sud with the headquarters presumably in LUDWIGSDORF or Thuringia. Of special interest were observations indicating that several cadre units are apparently being dissolved as, for example, those in MUEHLHAUSEN, ZWITZAU, and ZITTAU, and also the amalgamation of the two divisions in QUEDLINBURG and DESSAU into one division in MAGDEBURG and the amalgamation of the two divisions in LEIPZIG I and II into one division in LEIPZIG. 25X1

SECRET

SECRET

- 15 -

25X1

Although it is still too early to draw definite conclusions from these observations, there is a possibility that only about 18 KVP divisions rather than 24 will be activated. This would mean that six divisions each would be assigned to Armeegruppe Nord, Armeegruppe Mitte, and Armeegruppe Sued. The officers' academy of the KVP was transferred from DESSAU-KOCHSTEDT to DESSAU-AMWICK at the beginning of September. A short time later, the cadre division QUEBLINBURG was transferred to DESSAU-KOCHSTEDT.

21. Ministry for National Forces.

At the beginning of September, the ministry exchanged its quarters on Glinkastrasse, BERLIN, with those of the Bureau for Economic Affairs on Schnellerstrasse, [REDACTED]

[REDACTED] in August as compared to that in June and July. The personnel strength increased from 150 persons at the beginning of August to 1,200 persons at the end of September 1952. [REDACTED]

Several key officers of the former NVA were reassigned to the Ministry for National Forces, which, though it attempts to conceal its military character is unable to do so.

22. Summary.

The activation of the so-called National Forces from the KVP progressed rapidly during September. However, no large units are ready for commitment, as the units are not completely motorized and the status of training is still insufficient.

AUSTRIA.

Order of Battle.

23.

[REDACTED]
a signal regiment of the Central Group of Forces, [REDACTED]
ST. POELTEN, until 5 August;

44th Gds Locz Regt, [REDACTED] VIENNA, until 12 July;

106th Gds Div SP Regt, [REDACTED] KACRAN, until 18 June;

32d Gds How Arty Regt, [REDACTED] KATZERSBACH, until 17 March;

Hq 95th Gds Itz Rifle Div, [REDACTED] ST. POELTEN, until 21 May;

204th Gds Itz Rifle Regt, [REDACTED] BISMARCK, until 13 July;

An AAA regiment of the 23d AAA Div, [REDACTED] STOCKHAU, until 23 June;

There are indications that the 23d AAA Div has been assigned a fifth AAA regiment which is presumably stationed in STOCKHAU. [REDACTED]

Training.

24.

[REDACTED] some Soviet AAA units stationed in Hungary practiced at the ARWELON firing range in September.
